## WORK EXPERIENCE

### Packaged App Development Associate Accenture

10/2023 - 10/2024

Bangalore

- Worked with Health Service Suite, where we developed software solutions for various U.S. state governments.
- As a Java full stack developer, I am actively involved in both frontend and backend development, utilizing technologies such as Spring Boot for server-side and Angular for creating dynamic user interfaces.
- Worked on technologies like Java 8, Spring Boot, JIRA, Postman, SoapUI, SonarQube, and SQL.
- I also focused on performance tuning of the application, optimizing both backend queries and the frontend to ensure that the portal could handle a high volume of transactions efficiently.
